The *Art* of Outdoor Living

Sanctuary composite decking in Earl Grey.

www.lakeshorebuildingsupplies.com

Step outside.

Your deck is an extension of your home – where the world slows down, and simple moments become treasured memories. Whether relaxing alone, gathering with family or celebrating with friends, it sets the stage for beautiful outdoor living built for life.

Let us help you create your dream outdoor living space.

Who we are.

Helpful, credible experts.

Whether it's finding the perfect board color, designing a deck layout or providing tips on selecting a contractor, Fiberon is here to help. We offer straightforward information and honest advice so you can make the best decisions for your unique space.

Local roots, global reach.

Fiberon® products are made in the United States, both in our home state of North Carolina and in Idaho. From these two locations, we distribute throughout North America and to more than two dozen countries in Europe, Asia, Africa, Australia, and Central and South America.

www.lakeshorebuildingsupplies.com

Why we do it.

Longer lifespan, lower cost of ownership.

From replacing splintered boards to reapplying stain or paint, the average pressure-treated deck needs a lot of maintenance. Those supplies can add up to hundreds of dollars each year, not to mention the time spent refinishing and repairing old boards. A Fiberon composite deck? Less than \$50 in annual maintenance costs and a high-end look that lasts.

Safe for your family, safe for the environment.

Our composites are manufactured using sustainable processes and are free of toxic chemicals. And, unlike wood, they prevent further deforestation. Visit fiberonbalance.com to learn more.

Learn more at balance.fiberondecking.com.

The science behind sustainable outdoor living.

Trees are beautiful. About half of what's in our decking comes from recycled wood — sawdust and leftover material that would otherwise be discarded.

- The average wood deck uses about 11 Southern Yellow Pine trees (500 sq. ft. deck).
- Each year, Fiberon preserves more than one million trees from being cut down. That's equal to 15,000 football fields worth of healthy forest.

Plastic lasts a lifetime... or ten. The other half of the core of our deck boards comes from recycled plastic. Think grocery bags and recycled packaging material.

- Fiberon incorporates the equivalent of 2,000 plastic bags into each board.
- Each year, Fiberon averages 100 million pounds of recycled plastic put to good use.

Resourceful to the last drop. Manufacturing composite decking requires a constant source of water. The good news? We reuse almost all of it with our closed-loop system.

- Fiberon's closed-loop water system pumps over 3.5 billion gallons of water each year.
- Fiberon recycles the equivalent of 5,300 Olympic-size swimming pools annually.

Don't waste a thing. We reuse 98.5% of the waste from our manufacturing process — from misfit boards to router clippings. Every day.

An unlikely match.

You're usually asked to choose between wood or plastic. Natural or synthetic. Paper or plastic. Our sustainability story starts with this unlikely match — all the best qualities of recycled wood, combined with the long-lasting resilience of recycled plastic. The blending of these two materials is the reason why our products last, and why they're sustainable from start to finish.

Time is one of your most valuable resources and Fiberon® composite decking is nearly maintenance-free. Unlike a Fiberon composite deck, a wood deck starts with chemicals used to pressure treat the lumber and needs to be refinished with more chemicals every year or two. That's a lot of energy (mostly yours). Instead of staining and sealing, we think the most truly sustainable story is one that ends with you, spending time with your family, on your beautiful new Fiberon composite deck.

Through Fortune Brands Home & Security, we're partnering with the National Forest Foundation in their effort to plant 50 million trees.

Decking

Make every weekend count.

At Fiberon we believe that decks are meant to be enjoyed, not maintained. Our composite PE and PVC decking won't warp, rot or splinter, so the look you love today will be there tomorrow. Wood decking simply can't compare.

The Fiberon logo, consisting of the word "fiberon" in a lowercase, white, sans-serif font with a horizontal line above the letters "i" and "e".

Promenade PVC decking in Natural Reef.

Evoked the feeling of luxurious living with Fiberon® Promenade decking. Promenade decking offers the aesthetic of high-end, handcrafted wood decking, with the benefits of premium PVC. Grooved- and square-edge Promenade deck boards feature four-sided capping with streaking on the unembossed underside.

- Next-generation surface coating material provides superior weather resistance and durability.
- Features a slip-resistant* surface texture, making it ideal for docks, marinas and other waterside applications.
- A synthetic solid core construction provides protection from cracks, splinters and mold.
- Approved for use in all Wildland Urban Interface (WUI) zones and meets additional fire performance requirements of San Diego County. ASTM E84 Class A.

Square Edge = 1.05 in. x 5.5 in.
Length: 16 ft. and 20 ft.**

Grooved Edge = 1.05 in. x 5.5 in.
Lengths: 12 ft., 16 ft. and 20 ft.

Paramount PVC decking in Flagstone.

Discover high-performance, low-maintenance decking that suits a busy lifestyle. Made from durable PVC, Paramount is a great choice if you're looking for something lightweight with excellent slip resistance. Paramount deck boards are wood free, eliminating the potential for mold growth and making them ideal for docks and other waterside applications.

- Lightweight, easy-to-handle boards.
- Resists moisture, dents and flames.
- Offers exceptional slip resistance* when dry or wet.
- Approved for use in all Wildland Urban Interface (WUI) zones and meets additional fire performance requirements of San Diego County. ASTM E84 FSI 30 Class B.

Square Edge = 1 in. x 5.5 in.
Length: 20 ft.**

Grooved Edge = 1 in. x 5.5 in.
Lengths: 12 ft., 16 ft. and 20 ft.

Concordia composite decking, Symmetry Collection in Graphite.

Dramatic colors and streaking emulate exotic hardwoods, and the low-gloss formula and micro-texturing create a unique finish. Features subtle grain patterns with no repeats. Durable composite core resists splintering, rotting, cracking, insects and decay.

- The flat-profile bottom provides a sturdy feel, reminiscent of traditional lumber.
- Finished surface on top and bottom is ideal for second-story decks, and the reversible boards save time and money and reduce waste.
- Tested for use in cladding applications.
- Contains 94% recycled content.

Square Edge = .92 in. x 5.4 in.
Lengths: 12 ft., 16 ft. and 20 ft.

Grooved Edge = .92 in. x 5.4 in.
Lengths: 12 ft., 16 ft. and 20 ft.

Fascia: .75 in. x 11.25 in. x 12 ft.

	Horizontal	✓
	Diagonal	✓

Concordia™ Symmetry® Collection

Concordia™ Horizon® Collection

- Fiberon Concordia decking is suitable for cladding applications and includes two distinct finishes.
- High-performance reliability backed by industry-leading warranties.
- Durable composite core ensures exceptional resistance to rotting, cracking, insects and decay.
- Variety of lengths and widths provide more design solutions, and longer lengths result in fewer seams for a cleaner aesthetic.*

- Choose boards that complement your deck or create a space that's uniquely you.
- Easy to install (no special tools or trade-specific labor needed).

- Low-maintenance composite material never needs sanding, staining or sealing.
- Contains 94% recycled content.
- Innovative PermaTech® cap layer provides superior stain and fade resistance.

Note: Warranties vary when used in alternative applications. See your Fiberon seller or visit www.fiberondecking.com for details on limited warranties and exclusions.

Color

Make a statement.

Do you gravitate toward classic styles, love bold, unexpected looks or prefer a more relaxed, coastal vibe? Just as you select furnishings to create a mood, your deck board color will also influence the look and feel of your outdoor space.

Golden Browns

Warm and natural, these shades complement any architecture.

Reddish Browns

For warmth, energy and landscaping that pops, choose a reddish hue.

Grays

The perfect choice for coastal homes, gray evokes thoughts of rocky shorelines and weathered wood.

HavenView CountrySide railing in Tranquil White.

Strong is stylish.

From its understated satin finish to its clever sub-rail reinforcement, HavenView CountrySide railing is the ideal balance of beauty and strength. The sculpted top rail imparts a touch of sophistication. Three color choices and two baluster infill options create multiple designs. The smart composite construction and protective bonded cap layer were engineered for performance and longevity.

- Refined satin finish adds elegance.
- Composite construction ensures lasting durability.
- Reinforced top rail provides a strong, sturdy feel.
- Hidden hardware gives a clean look.
- Compatible with ADA handrail system, available via special order.

Sold in line / stair sections as follows:

- 6- and 8-ft. sections for 36-in. rail height.
- 6- and 8-ft. sections for 42-in. rail height.

These sections include top and bottom rails, sub-rails, balusters, crush blocks with holders, and mounting hardware.

Choose from beveled composite balusters or round aluminum balusters.

Actual colors may vary from the samples and photography.

Deck Fasteners

Engineered for optimal performance and universal adaptability to any Fiberon® deck, these fasteners are designed to enhance the overall finish of your deck project while offering flexibility to suit a varied range of uses and applications.

Hidden Grooved Fastener Systems

This popular choice offers versatile solutions for grooved deck boards to create a smooth, flawless surface.

Face-Fastening Systems

Most economical option designed for project efficiency combines the simplicity of Fiberon square-edge boards with standard or color-matched face-fastening applications.

How They Work

Hidden clips ensure a smooth surface and more seamless transition from indoor to outdoor spaces.

Install decking in half the time with award-winning EDGE and EDGEX Clips. EDGE Clips are for 90-degree deck patterns. EDGEX Clips are for any deck pattern. They are pre-assembled, one-pass fasteners with no partial installation required.

For the Phantom universal fastener, the clip is installed into the groove. Then, a screw is driven straight down into the joist (90-degree angle).

CAMO®

Fiberon® and CAMO® create products for the consumer who wants to install a beautiful deck and have the best experience possible. We value trusted products that are easy to use and help build a perfect deck every time. As the industry professionals' first choice, and with a first-class consumer warranty, this partnership is bound to build for a lifetime.

Fiberon® EDGE™ and EDGEX™

- Install decking in half the time with award-winning EDGE and EDGEX Clips.
- Fiberon EDGE and EDGEX Clips are designed for use on all grooved decking, including PE and PVC.
- EDGE Clips are for 90-degree deck patterns.
- EDGEX Clips are for any deck pattern.
- Pre-assembled, one-pass fasteners do not require partial installation and are easier to install with the included NEVER-MISS™ Guide.
- Clip gusset creates 3/16-in. spacing, holds the board down, and is up to 88% stronger than competitor's clips in lateral movement tests.

Fiberon® STARTER Clip

- Achieve a fastener-free deck surface on any grooved board.
- Versatile clip that is an easy to install and can also be used as an L-Bracket.

Fiberon® Phantom® Universal Hidden Fastener

- Easy to install, helps minimize lateral board movement and works with most leading grooved composite decking brands.
- Black HDPE fastener with pre-inserted screw practically disappears between deck boards.
- Carbon steel-coated screw helps prevent rust and corrosion.
- Pre-inserted screw enables easy one-touch installation.
- Self-gapping design ensures consistent 3/16-in. spacing between every board.

How They Work

Color-matched plugs camouflage screw heads across the deck surface, stairs and perimeter boards.

A special driving tip automatically puts the screw at a precise depth.

Then, the color-matched plug is tapped in with a hammer.

Cortex® and Pro Plug®

- Installed on the board's surface.
- Use with square- or grooved-edge boards.
- A color-matched plug made from Fiberon® decking minimizes the appearance of hardware.
- May be used on stairs.

- Pre-drilling is required at 40 degrees Fahrenheit or below. We strongly recommend pre-drilling in all instances.
- Not for use on fascia or risers.
- Fascia and riser Pro Plug options also available for PE composite.

Cap-Tor[®] xd Color-Matched Screws

- Cap-Tor xd screws are color matched to Fiberon[®] decking.
- Available for PE and PVC deck boards.
- Epoxy-coated carbon steel (350 and 1,750 screw packages available. T-20 Star bit included).
- 305 Grade Stainless Steel version also available (100 and 350 screw packages available. T-20 Star bit included).
- Use with Smart-Bit[®] Depth Setter.

Starborn[®] Fascia System

- Fascia tool and screws are color matched to Fiberon fascia.
- Designed to handle the large amount of expansion and contraction that can occur with composite deck fascia boards.
- Epoxy-coated carbon steel screws (available in 100 screw package with T-20 star bit).
- Also for use on riser boards.

CAMO® DRIVE™

Install decking up to 5X faster with the cordless stand-up deck fastening tool that attaches to your drill.

- Installs Fiberon® EDGE™ and Fiberon EDGEX™ clips.
- Stand-up tool allows you to have a faster installation than other methods that's also easier on your body.
- Tool is easy to use – adjustable handle, quick-change button to swap out included fastening guides, simple to load the bit and attach to your drill.
- Also fastens CAMO collated EDGE Deck Screws and CAMO Collated Face Screws (available through CAMO).

CAMO® LEVER®

Straightens and locks in deck boards.

- Speeds up grooved deck installs – locks-in rows of boards and clips before fastening.
- Strong enough to straighten warped boards.
- Adjusts to wood and metal joists 1½ - 3 in. wide for jobsite versatility.
- Multi-directional lever locks in one turn.
- Use 2 – 4 LEVERS along the length of the deck for the best clip installation experience with consistent board spacing.

CAMO® DRIVE™ & LEVER®

- One-year warranty through CAMO.
- Sold through Fiberon distribution partners.

Lighting

Spend more time outside.

Create a complete backyard experience with Fiberon® lighting. Warm-toned LED lights provide ambience and increase the safety of your outdoor living space by illuminating your deck, railing and stairs. Fiberon lighting is easy to install, allowing you to spend less time setting up and more time enjoying time outside with your family.

Resources

How to kick-start your decking plans.

With a little free time, a computer and our online tools,
you'll have everything you need to create the perfect outdoor space.

Online Tools

Your ultimate outdoor space begins here.

Dream it.

Find ideas and inspiration in our Product Gallery and Contractor Gallery.

The Product Gallery features completed projects as well as deck board images highlighting the gorgeous colors and grain details. Skilled contractors showcase their work in our Contractor Gallery. It's a great place to explore various deck designs and elevations.

Plan it.

Bring your deck design to life.

Fiberon® Discovery Deck Design Tools take the guesswork out of planning your outdoor living space project and provide you with the resources you need to navigate your deck design journey – from start to finish.

Deck Designer

Design a deck from scratch or choose from our pre-set deck shapes. Then, customize it to fit your home's style.

Inspiration

Browse our gallery of beautiful Fiberon decks to find inspiration.

Your Home

Upload photos to preview what a new Fiberon deck would look like on your home.

Deck Visualizer

Our augmented reality feature allows you to place your designed deck on your house and view it in real time, giving you a great idea of what your new deck will look like on your home. Take photos of different angles of your deck area and our tool will stitch the images together, allowing you to rotate and see multiple views of your deck.

Visit fiberondecking.com/design-tool to learn more.

Do it.

It's time to build. We can help.

Our Find a Builder tool lists local, qualified Fiberon deck builders who can answer questions, provide project advice and quote the job. Or, use the Where to Buy feature to find local Fiberon dealers as well as lumberyards and home centers that carry our products.
